

SPRING PERFORMANCE (Cool Season)

A high-performance foliar program that enhances turf color, improves rooting, and increases carbohydrates is necessary to endure early spring's temperature and sunlight variability. This high-performance program will enhance turf repair from winter damage and prepare it for summer stresses.

Foliar-Pak® Foundation Forty | 1 - 2 oz per 1,000 sq ft

Foundation Forty is a highly concentrated blend of specific amino acids that increases plant energy, builds proteins, and improves carbohydrate storage. It also improves plant metabolism, especially photosynthesis, and enhances the uptake of other nutrients and spray tank additions.

Foliar-Pak® Patch Amino 5 | 3 oz per 1,000 sq ft

Patch Amino 5 is an all-in-one product that provides a cultural solution to spring dead spot, summer patch, and take-all patch on golf courses. It contains five key nutrients: ammonium sulfate, manganese, phosphorous, potassium, and AminoPrecise® amino acids.

Foliar-Pak® Amperage | 3 oz per 1,000 sq ft

Sugars from natural molasses in Amperage energize plants and microbes with available carbon sources that stimulate biological activity. Amperage also provides an excellent color response and aids in thatch reduction.
